

STARFIELD ANNOUNCES DISTRIBUTION COMPANY

OCT 22, 2009

FOR IMMEDIATE RELEASE:

TORONTO - LONDON. Starfield Independent Studios Inc. (Starfield Independent) is pleased to announce the formation of a new distribution division, Starfield Releasing.

Starfield Independent, a recently launched Toronto Canada - and London England - based film, television and multi-platform production company, has created Starfield Releasing to handle both distribution of its growing library of genre-driven feature films, stock footage, wireless content, and pre-sales of productions in development by Starfield Independent.

Starfield Releasing's flagship launch is the newly produced "*The Conspiracy Show With Richard Syrett*", a TFC Productions / WOWTV co-production executive produced by Starfield Independent and includes such new TV titles as the Manga/live-action/sci-fi/documentary hybrid "*LOST ON The Ice Planet*", a two-part mini-series starring Michael Ironside (Terminator Salvation) in the final stages of post production; *Creative Tensions*, a four-part, wish-fulfillment based reality TV mini-series; *The Transit of Life* a six part mini-series about Earth and life's existence within the evolution of the cosmos commencing pre-production in December 2009.

Starfield Releasing will also handle pre-sales on the 3D sci-fi psychological horror film "*Heliosphere*" (slated for a spring 2010 production start in co-production with UK's Classic Productions Ltd and Germany's Circles and Lines GmbH).

"We are extremely pleased with this initial slate. This high quality, thought provoking line-up also underlines the originality in, and diversity of imaginative content that will be the Starfield benchmark" notes Starfield Head of Development and Production Philip Jackson. "We expect Starfield Releasing to play a key role in future development by its reach with our international partners throughout Europe, Asia to Hollywood," says Starfield Independent President Mark Pickering. .

Starfield Releasing is also making a major investment in e-commerce distribution for current and new product. The e-site will also enhance distribution opportunities for independent producers of content that are compatible with Starfield content. Starfield Releasing expects to launch a full e-commerce site with high-end platforms in early 2010.
